

Guidance and Recommendations

A clear scope and sequence serves as the foundation of a well-structured course, detailing content and delivery order. Each course should feature a scope and sequence, including a unit title, learning objectives, pacing, community connections, and a culminating experience or project for each unit. This framework ensures the attainment of desired outcomes. Prioritize learning outcomes beneficial to participants, whether skill-based, social-emotional, positive youth development, academic, or other impactful areas. Considering a broad range of outcomes helps create an effective enrichment program that caters to participant needs.

Course Name					
Description					
Essential Question					
Target Grade Level/s					
Pacing (course length, # sessions)					
Recommended Instructor					
Unit	Unit Title/ Name	Youth Learning Objectives <i>(the knowledge and skills you want youth to acquire)</i>	Pacing <i>(sessions are typically 60-minutes)</i>	Community Connections <i>(field trip, guest speaker, service learning)</i>	Culminating Experience/Project/Product
